

Big Shot Sandwiches

With the introduction of the NEW Big Shot Platform and Thin Die Adapter, it's time to review how to build the "sandwich".

If you are not using the new platform and thin die adapter, but rather the connected 3 piece old system....continue to follow the printed instructions right on that system.

ALWAYS REMEMBER. . . if in doubt. . . STOP!!!! If it feels too tight when you try to roll your project through the Big Shot. . .STOP!!!!

Your Big Shot is an expensive tool to replace...and let's face it...you would be lost without it....stop and take a minute to review the instructions, rather than push forward and break your machine.

These "sandwiches" are from the bottom to the top

FRAMELITS (open thin dies) and THINLETS (non detailed thin dies) :

- **magnetic platform**
- **standard cutting pad**
- **single sheet of card stock**
- **die**
- **standard cutting pad**

DETAILED THINLETS:

- **New big shot platform with thin die adapter**
- **precision base plate**
- **single sheet of cardstock**
- **die**
- **standard cutting pad**

EMBOSSING FOLDERS:

- **new big shot platform (no thin die adapter)**
- **standard cutting pad**
- **single sheet of card stock inside embossing folder**
- **standard cutting pad**

BIG SHOT ACCESSORIES

Magnetic Platform (130658 \$40.00) Our exclusive magnetic platform holds your Framelits and Thinlits in place when you cut. No more worrying about the die sliding out of place while your beautifully-stamped image goes through the Big Shot!

Precision Base Plate (139684 \$25.00) This steel plate delivers improved performance with more detailed Thinlits dies, giving you extra fine cuts. For best results, use with the Multipurpose Platform.

Big Shot Die Brush (140603 \$11.00) Comes with a foam pad to help you easily remove small cut pieces from dies.

Big Shot Platform (142802, \$26.00) Replacement platform for the Big Shot, including adapter for use with thin dies.
